

VITAL LINK

Mechanical Reps, Inc. is committed to being the **vital information link** between contractors, engineers and owners. To continue as this link, we are altering the format of MRI University to better serve our customers.

This year we will hold **two semi-annual events**. The sessions will be held in April and September.

At each event, we will present six HVAC topics with the associated products and manufacturers. 1 PDH credit will be issued for each respective 1 hour session. You may attend all or only your preferred sessions.
